

Jazz Stand Flight Case

A strong flight case to store and transport the RATstands Jazz Stand in. Cases available in either 6up or 24up (24up has 4 castors for maximum manoeuvrability). A sleek and safe way to store the Jazz Stand.

RATstands
TEMPO RANGE

Flight Cases are available in 6up (up to 6 Jazz Stands), and 24up (up to 24 Jazz Stands). The larger case size has 4 castors with brakes, to make moving the stands around easy.

The Flight Cases are made with a foam lining inside, to protect the Jazz Stands from any damage during transit.

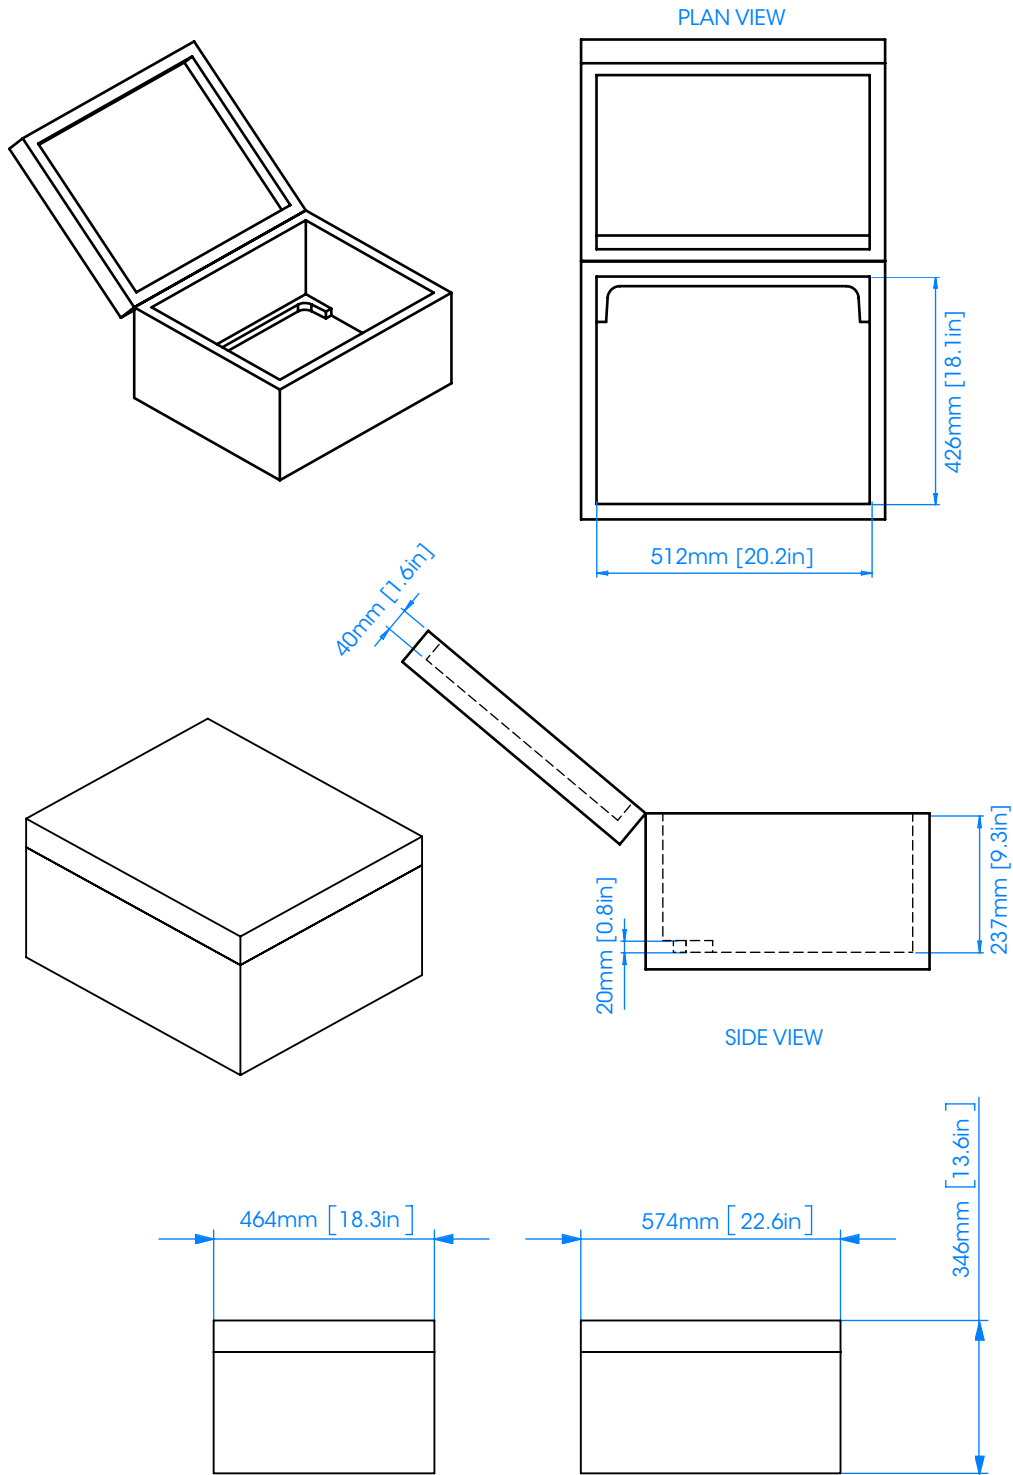

Each Flight Case has two butterfly clips to securely lock the case closed. This is to prevent any damage to the music stands when they are being stored, or transported between rehearsals and shows.

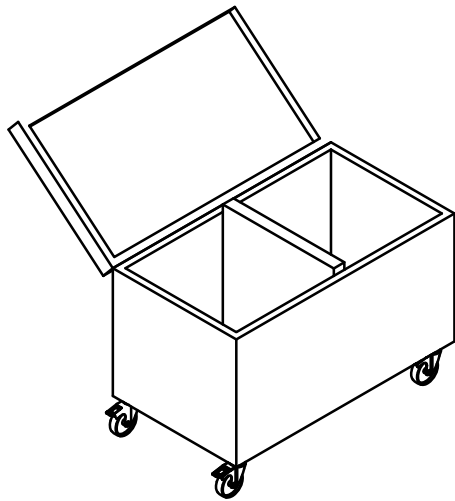

There are two recessed handles on the ends of the case, for ease when moving or lifting.

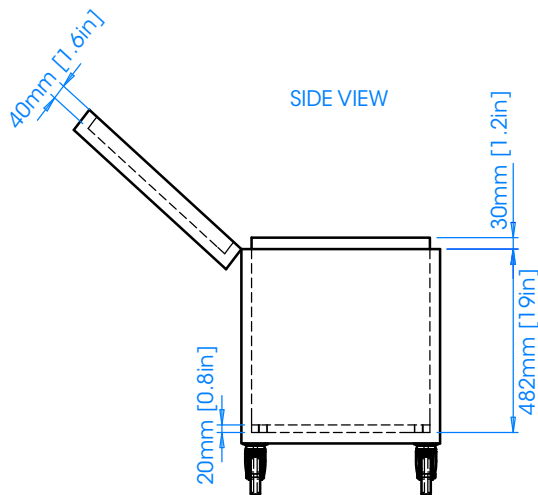

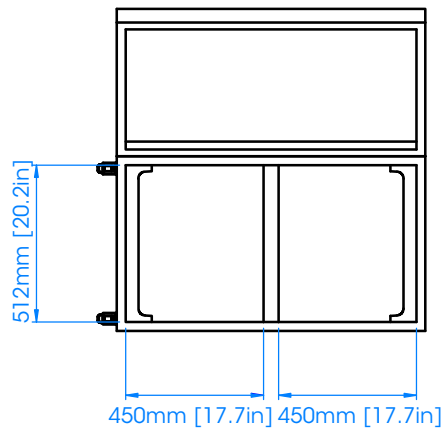

6UP Flight Case 69Q3 (For up to 6 Jazz Stands)

24UP Flight Case 69Q4 (For up to 24 Jazz Stands)
