

wak! a TUBES

Hollow tubes which can be played with a beater, struck against a hard surface or tapped against each other to create different sounds and a simple harmony. Ideal for playing individually or together in groups - a simple and inexpensive way to introduce children to music.

Tubes are lightweight so easily transportable, and are a simple and inexpensive way to create music as well as being enormous fun.

£129

Complete sets

PP790 C Major diatonic scale set
8 notes C40-C52, ranging in length from 12" to 24".

£22.50

PP791 Chromatic set
5 sharps and flats (C#41, D#43, F#46, G#48, A#50) which combine with the PP790 to create a full chromatic octave of 12 notes. Tubes range in length from approx 12" to 24".

£15.00

PP795 C Major pentatonic scale set
6 notes C40, D42, E44, G47, A49, C52. Suitable for younger players, as all the notes sound pleasing when played together. Tubes range in length from approx 12" to 24".

£17.50

PP793 Bass diatonic set
7 notes: C28 to B39. Rich and sonorous, these combine nicely with PP790 to form 2 full octaves. Tubes range in length from approx 24" to 48".

£34.50

PP794 Bass chromatic set
5 sharps and flats (C#29, D#31, F#34, G#36, A#38) which combine with the PP793 to create a full chromatic octave of 12 notes. Tubes range in length from approx 27" to 48".

£29.99

COLOUR MATCHING NOTE SYSTEM

Wak-a-Tubes use the same colour system as Percussion Plus bells and chime bars, see the Percussion Plus website for details.
